This is a preview of my black and white photography.

I'm a freelance photographer from Flippin, Arkansas.

# About Me

My love for photography started many years ago and I merely used my iPhone, but I eventually purchased a Nikon D850.

I enjoy any and all photography opportunities, from flowers to nature to animals, structures, architecture, people, and events. It all interests me. I have an eye for what makes a great and even epic photo.

# My style of photography

I like taking photos using different angles and perspectives.

# Selected Works

From Town artwork to architecture, each can be captured in a unique photo.

# Selected Works

I also like to play with light and distance to reveal different sides of a subject. I enjoy getting action shots as well as still photos.
